Dear Michael and Claudio

Please find attached the preliminary schedule for the IPR presentation in Stockholm. Note that we plan for two separate filmed interviews on the afternoon of the 12 June; one regarding the current peer review with Michael and one regarding NEA peer reviews in general with Claudio.

Further, we have now decided on the 1st of June at SSM's offices for the factual check of the final draft report. SSM will make its own factual review concerning the description of the review assignment, the role of SSM and the Swedish programme in general. In accordance with the terms-of-reference, SSM will also invite SKB staff to make a factual check regarding the content of the license application. We have understood that the NEA representative (Dr. Pescatore) of the international peer review team (IRT) will bring a sufficient number of paper copies of the draft report for inspection by SSM and SKB staff on the 1st of June, and that these copies will be retained by the IRT until the final report is released. All comments by SSM and SKB will be provided to the NEA in writing and will be filed in SSM's public registry. Any changes of the draft report, with respect to the received comments, should be documented in a traceable way and presented together with the final report.

Best regards
Björn
